**CONTEST COMMITTEE NOTES:**

Administrative geography concerns itself with the hierarchy of areas relating to national and local governments in the CIS. This hierarchy is complicated for not only are there several layers but the structure is different in each country of the CIS. In addition the boundaries of many of the layers in the hierarchy are subject to periodic or occasional change. Use this link <http://www.cisdix.srars.org/cisdixmaps.html> to view maps of all 12 CIS countries. Use this PDF file as a standard CIS Areas List for the CIS DX Contest. There are 213 current entities in the list.
